

INVITATION TO TENDER

“PRACCIS Project”
“Raw material Storage”

KOTRONIS
P A C K A G I N G

CALL FOR PROPOSALS
DECEMBER 2022

1.Introduction

1.1 Type of Tender Procedure

Kotronis Packaging (company) is conducting a tender procedure to receive proposals regarding the provision of internal and external silos for raw material storage, in the frame of PRACCIS project. This project refers to a Central feeding system that will automatically convey the raw materials to the injection molding machines.

Quotations must be prepared and submitted according to the following terms and conditions. Submission of the quotation will imply the provision of agreement-consent to the below Terms and Conditions.

Tender awarded criteria

The bidder with the most commercial advantageous offer will be selected. Tender awarded criteria are:

- Value for money – comparison between quality, price and technical advantage
- Previous experience in relative projects
- Functional features
- Delivery dates
- After sales service

1.2 Contact for the tender

All proposals should be addressed to:

Kotronis Packaging

praccis@kotronis.gr

2634071550

2. Description of PRACCIS Project and contract scope

2.1 Project description

PRACCIS project is a main part of the company's strategy for automatization into all stages of the production process.

As part of "PRACCIS" Project which is supported by Grant from Iceland, Liechtenstein, and Norway through the EEA Financial Mechanism 2014-2021 in the frame of the Programme "Business Innovation Greece", Kotronis Packaging will proceed with the purchase of the Raw Material Storage.

The Raw Material Storage is a necessary part of the central conveying system and it will consist of two types of silos, the external and the flexible internal silos.

2.2 Contract scope

Contract scope consists in the provision of implementation services and the purchase of the suitable equipment of automated Central feeding system.

Project implementation is divided into two modules:

- 1.** Automatization of the process.
- 2.** Real time Monitoring and Optimization of the process.

The technical specifications such as quantities can be requested and sent in writing via email to all potential bidders.

2.3 Time of Delivery

Delivery of the products/services shall take place no later than 17:00pm on 31 December 2023.

3. Format and Submission of Proposals

3.1 Language of Proposals

All proposals shall be written in English.

3.2 Contents of Proposals

Proposals shall comprise the following:

Technical offer

- Executive summary / company profile
- Product / services description and methodology / deliverables
- References of similar tasks previously performed would be an asset
